

Privacy Policy

Last updated: 21 May 2026 Effective date: 21 May 2026

This Privacy Policy describes how Kokoro ("we", "us", "our", or "the App") collects, uses, and protects your personal information when you use the Kokoro mobile application and related website at kokoromind.com (collectively, the "Service").

The Service is operated by **Denis Ivanov**, a sole trader based in the Netherlands, acting as the data controller for the purposes of the EU General Data Protection Regulation (GDPR).

Contact for privacy matters: dan@kokoromind.com

By using Kokoro, you agree to the collection and use of information in accordance with this policy. If you do not agree, please do not use the Service.

1. Information We Collect

1.1 Information You Provide

- **Account information.** When you create an account, we collect your email address and, if you set one, a display name. If you sign in with Apple, we receive an identifier from Apple and the email address you choose to share (which may be a private relay address).
- **Subscription and purchase information.** If you subscribe to a paid plan, the transaction is processed by Apple via the App Store. We do not receive or store your payment card details. We receive a confirmation of purchase, the subscription tier, and a transaction identifier from Apple in order to grant you access to paid features.
- **User-provided content.** Notes, mood logs, session preferences, and any other information you voluntarily enter into the App.
- **Support communications.** If you contact us by email, we retain your message and our response.

1.2 Information Collected Automatically

- **Usage and analytics data.** We collect anonymous or pseudonymous information about how you use the App, including features used, session length, screens viewed, in-app events, app version, device model, operating system version, language, and approximate region (country-level). This is processed by third-party analytics providers (see Section 4).
- **Crash and diagnostic data.** When the App crashes or experiences an error, we collect diagnostic information including device model, OS version, app version, the stack trace of the error, and a pseudonymous identifier. This helps us fix bugs.

- **Push notification token.** If you enable push notifications, your device provides us with a token that allows us to send notifications. This token does not identify you personally.

1.3 Sensitive Information

- **Microphone.** If you use features that require the microphone (such as voice-guided exercises or breathing detection), the App accesses your device microphone only while the feature is active. Audio is processed on-device wherever possible and is **not recorded, stored, or transmitted** to our servers unless explicitly stated in the relevant feature description.
 - **Health data (HealthKit).** If you grant permission, the App may read and/or write certain health-related data to Apple's HealthKit (such as mindful minutes). HealthKit data is stored on your device and is governed by Apple's privacy framework. We do not transmit HealthKit data to our servers and we do not share, sell, or use it for advertising. You can revoke HealthKit access at any time in iOS Settings.
-

2. How We Use Your Information

We use the information described above for the following purposes:

- To provide, operate, and maintain the Service
 - To create and manage your account
 - To process subscriptions and grant access to paid features
 - To send transactional communications (e.g., account confirmations, subscription receipts, security alerts)
 - To send push notifications you have opted into (e.g., reminders, new content)
 - To improve the App by understanding how it is used and fixing bugs
 - To respond to support requests
 - To comply with legal obligations and enforce our Terms of Service
-

3. Legal Basis for Processing (EEA/UK Users)

Under the GDPR, we rely on the following legal bases:

- **Performance of a contract** — to provide the Service you signed up for, including subscription management
- **Legitimate interests** — to improve the App, prevent fraud, and ensure security; we have assessed these interests against your rights and freedoms
- **Consent** — for optional push notifications, microphone access, HealthKit access, and certain analytics where required by law; you may withdraw consent at any time

- **Legal obligation** — to comply with applicable laws
-

4. Third-Party Service Providers

We use the following third parties to operate the Service. Each is bound by data processing terms and may process data outside the EEA under appropriate safeguards (Standard Contractual Clauses or equivalent).

- **Apple Inc.** — App Store distribution, Sign in with Apple, in-app purchases, HealthKit, push notification delivery (APNs)
- **Capgo** — over-the-air updates to the App's web bundle; processes pseudonymous device identifiers and app version data
- **ElevenLabs** — AI-generated voice synthesis for guided sessions; processes text prompts and returns audio. Voice generation is performed without personal identifiers.
- **Analytics provider** — anonymous and pseudonymous usage analytics (we will update this Policy to name the specific provider before adding it; current provider is disclosed in the App's privacy disclosures in the App Store)
- **Crash reporting provider** — diagnostic and crash data (current provider is disclosed in the App Store privacy disclosures)
- **Email and hosting providers** — for the website kokoromind.com and transactional email

We do **not** sell your personal information. We do not share your personal information with third parties for their own marketing purposes.

5. Data Retention

We retain your personal information only as long as necessary for the purposes described in this Policy:

- **Account data** — for as long as your account is active, plus up to 90 days after deletion to allow recovery and meet legal obligations
 - **Subscription records** — for as long as required by tax and accounting laws (typically 7 years in the Netherlands)
 - **Analytics and crash data** — typically up to 24 months in aggregated or pseudonymous form
 - **Support communications** — up to 3 years
-

6. Your Rights

Under the GDPR and other applicable laws, you have the following rights:

- **Access** — request a copy of the personal information we hold about you
- **Rectification** — correct inaccurate or incomplete information
- **Erasure** — request deletion of your account and personal information ("right to be forgotten")
- **Restriction** — request that we limit processing in certain circumstances
- **Portability** — receive your data in a structured, machine-readable format
- **Objection** — object to processing based on legitimate interests
- **Withdraw consent** — for processing based on consent, at any time

You can delete your account directly within the App at any time (Settings → Account → Delete Account). Account deletion removes your personal data from our active systems within 30 days, subject to legal retention requirements.

To exercise any other right, email dan@kokoromind.com. We will respond within 30 days.

You also have the right to lodge a complaint with a supervisory authority. In the Netherlands, this is the Autoriteit Persoonsgegevens (autoriteitpersoonsgegevens.nl).

7. Children's Privacy

Kokoro is not directed to children under the age of 16, and we do not knowingly collect personal information from children under 16. If you believe a child has provided us with personal information, please contact us and we will delete it.

8. International Data Transfers

Some of our service providers are based outside the European Economic Area, including in the United States. Where personal data is transferred outside the EEA, we ensure appropriate safeguards are in place, such as the European Commission's Standard Contractual Clauses or equivalent legal mechanisms.

9. Security

We implement reasonable technical and organizational measures to protect your personal information, including encryption in transit (HTTPS/TLS), access controls, and use of reputable cloud providers. No system is perfectly secure, however, and we cannot guarantee absolute security.

We may update this Privacy Policy from time to time. When we make material changes, we will notify you within the App or by email and update the "Last updated" date at the top. Continued use of the Service after changes become effective constitutes acceptance.
